RE: 2021 Membership & Contractor Accreditation – Thank You

Congratulations! Your company is an accredited contractor and member in good standing with the Air Barrier Association of America (ABAA) for 2021.

The air barrier industry has grown tremendously in the last year, and that's due in part to the excellent work that ABAA accredited contractors have been doing, along with the reputation they're building for themselves. ABAA is glad you have chosen to continue down this path with us.

In the past few months, the contractors committee has been diligently working on finding new ways to provide support to our members, as well as promote our accredited contractors in the industry.

As a thank you for your continued membership with us, enclosed you will find the following items:

1. J-Roller: used for ensuring a tight seal on the transition membrane.
2. ABAA stickers to be used on the membrane wall, wherever you do your testing for inspection, showing the edges are sealed properly and verified by ABAA on QAP projects. The stickers are weatherproof, have a permanent adhesive and will adhere to all items that have a smooth flat surface.

These items help build brand awareness for your company, all the while recognizing you as an ABAA accredited contractor.

We appreciate your membership and we look forward to continuing to work for you, and with you in the future. If you have any comments or questions, please do not hesitate to contact the ABAA office at 1-866-956-5888 or abaa@airbarrier.org.

Sincerely,

Air Barrier Association of America
